

Capsid

Tail

Instructions

1. Print template onto desired paper (thicker paper works best)
(printing on A4 paper yields a phage of approx. 8cm³)
2. Cut out capsid and tail nets
3. For a nice crisp phage, score or crease all fold lines including glue tabs
4. *In vitro* assembly (glue together using the grey tabs)
5. Attach tail to capsid with more glue
6. Admire
